The PR Series

**3 Input Channel Mixer Amplifier: From 15 to 60 Watts of Continuous RMS Power
PR15B • PR31B • PR60B**

The versatile **PR Series** combines the flexibility of the popular **Grommes~Precision MICRO** mixer amplifier series with a digital tuner. Thus, becoming an all-in-one solution to a common audio application: providing background music (whether from the on-board tuner or auxiliary) with paging via microphone and/or telephone.

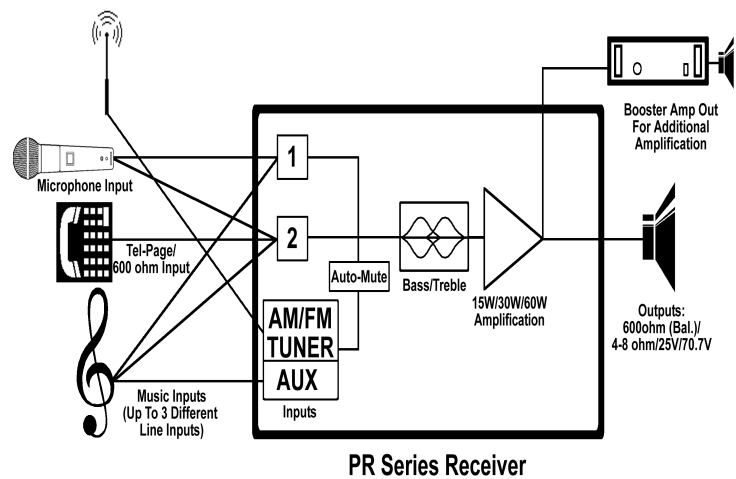

The **PR Series** features a liquid crystal display with 10 AM and 10 FM preset station memory and auto station search selector. In addition, it features 3 input flexible channels (1 mic, 3 aux, Tuner, 1 600 ohm/Tel-Page) which are capable of pumping 15, 30, and 60 watts of continuous RMS power into 4 ohm, 25V, or 70.7V speakers with low distortion, wide frequency response, and full range bass and treble controls. Plus, the **PR Series** automatically mutes the aux or tuner channel when the page or mic channel is activated.

Designed for bulletproof operation, the **PR Series** is packed with safeguards to ensure long-life, including a built-in circuit breaker and thermal and current limiting. With over a half-century of experience in the industry, **Grommes~Precision** backs the **PR Series** with its unbeatable expertise and Precision Assurance Pledge: a **5 year warranty** and a **30 day money back guarantee**.
